

Timken 24168EMBW33W45AC3, Spherical Roller Bearings - Brass Cage

Timken Part Number **24168EMBW33W45AC3**, Spherical Roller Bearings - Brass Cage

Specifications:

Design Unit	METRIC
Bearing Weight	266.000 Kg585.20 lb
Cage Type	EMB
UPC Code	87796230798
Cage Material	BRASS
Superseded Part	24168YMBW33W45AC3

Dimensions:

--	--

d - Bore	340.000 mm13.3860 in
D - Outer Diameter	580.000 mm22.8350 in
B' - Inner Ring Width	243 mm9.567 in
B - Outer Ring Width	243.000 mm9.5670 in

Timken have created somewhat of a revolution with their spherical roller bearing portfolio. The Timken Spherical offers better load distribution, reduced friction and increased wear resistance, but don't take our word for it, have a look at the results below.

Thanks largely to the design of their slotted steel cage, Timken Spherical roller bearings run considerably cooler when compared to the competition - That means they'll run for longer before re-lubrication or replacement is required.

Example: An industrial gearbox using a Timken Spherical Roller Bearing could extend bearing life by 20 months, which in turn means up to 10 fewer oil changes, one less rebuild and 33% longer bearing life.
